The Magic of Christmas!

monthly newsletter

Merry Christmas!
Ho! Ho! Ho!

WELCOME!

We welcome you to our Christmas Special Monthly Newsletter! Here at SFS, we believe that creativity is intelligence having fun! As much as we enjoyed crafting this month's adventures and grand celebrations, we hope you enjoy it too! We have filled our sacks with goodies and are off to spreading some joy. See you soon!

"It is Christmas in the heart that puts Christmas in the air."

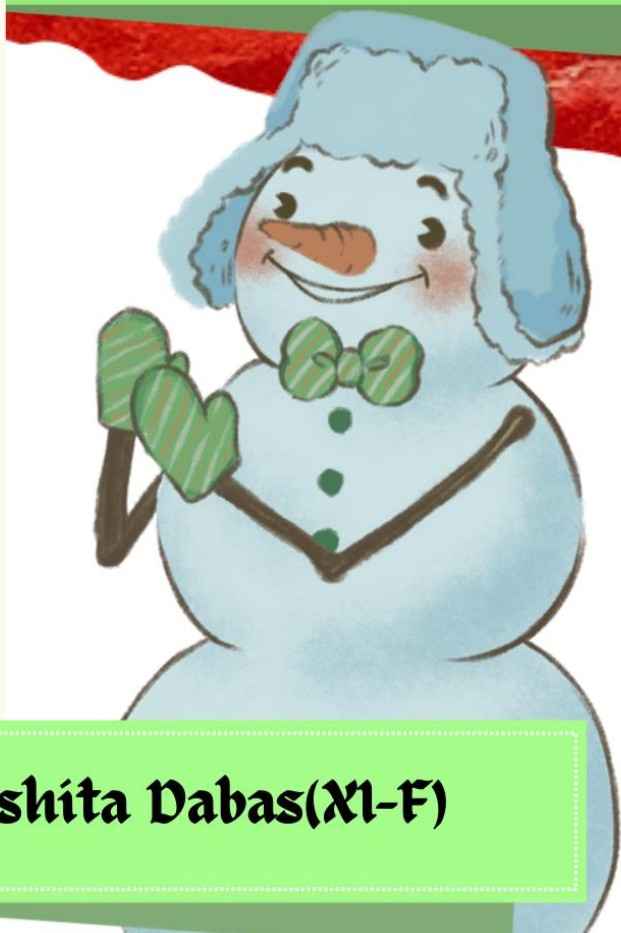

"Christmas
will always be
till the time
we stand heart
to heart, hand
in hand."

Say No to Tobacco!

Summer Fields School, Kailash Colony observed the Dry Day for Tobacco for the month of December 2021. In order to sensitise the students regarding the ill effects of consuming tobacco, a plethora of activities were organised during the Online classes, where the students not only participated wholeheartedly, but also highlighted the fact that smoking leads to disease and disability and harms nearly every organ of the body. The purpose behind conducting these activities was to raise awareness against the ills of tobacco consumption amongst the youth.

Let everyday be Christmas!

Let everyday be Christmas 🧑🏻

Christmas is everlasting & not just for one day,
For giving, celebrating, loving, caring,
merry making are not to put away,
Christmas is the time for party and presents and all that jazz,
It's all the time for razzmatazz.
Christmas is all about decorating houses with bells, lights and tinsel along with putting them in some box upon a shelf,
It's the time to realise that all the good you do to others is the good you do to yourself.

Amazing Online Art Classes!

I eagerly wait for the online art classes. It is a great fun to unwrap the surprise that our teacher brings us every time. We are learning new techniques and ways of art. It is so refreshing when when teacher allows us to draw something on our own We get to sharpen our creativity. Displaying our work online helps us to share it with our classmates and mentors. That is bringing us the encouragement to do better, at our doorstep in this lockdown situation.

Online art classes are amazing!

A Tribute to English Class

To start with, the methodology of English class differs from all the other classes. Fun and informative activities and pre reading tasks are provided in every chapter / poem. I never had to study much again for any exam. Just attending classes and completing the assignments would be enough to understand the subject well. Jyoti Ma'am explains the chapter deeply, explaining even the easiest sentence to avoid any doubts. We are provided with summaries , themes etc for literature and plenty of exercises for grammar. I must say that my spoken and written English has improved a lot. At last, I would like to say that, despite facing difficulties in handling online classes, our english teacher, Jyoti Pupneja ma'am made it seem too smooth and turned them into a grand success.

CHRISTMAS DELICACIES

- Rasveen Kaur IX-A

Christmas is a festival like no other . It is that time of the year that everyone waits for. Along with the holiday extravaganza and yuletide cheer Christmas brings along an iconic holiday menu too.

These foods are totally drool worthy and are what we call comfort foods and are definitely wholesome.

Homemade traditional plum cakes, cupcakes, and muffins are the special treats on Christmas . One of the most delicious treats of Christmas are the ginger bread man cookies . Christmas pudding tops off the end of the feast.

What is actually served for Christmas dinner varies by country but the happiness Christmas brings is same in each and every corner of the world! Here's how the bakers at SFS stunned us with their delicious baked goodies.

Star of Bethlehem

We all are familiar with the name Jesus. He was the "King of Jews", a messiah. He is said to have mystical powers and help people in need. After his birth, a star guided the "MAGI" to him.

Because of this star, the Magi knew that Jesus was born, and later helped them go to Bethlehem. According to the Gospel of Matthew, the star made the magi travel to Jerusalem.

There they met King Herod of Judea, and asked where the king of the Jews had been born. Herod's advisors said that the Messiah would be born in Bethlehem, a nearby village, because of a prophecy in the Book of Micah. While the magi were going to Bethlehem, they saw the star again. The star stopped above the place where Jesus was born. There, the magi saw Jesus with his mother, worshipped him and gave costly presents to him. They then returned back to their kingdoms. The Three Kings were among the wisest men of their time. Discovering that the Messiah was to be born, they organized an expedition to find him, following a star that led them to Bethlehem. Despite their culture and religion in a foreign land, they accepted Jesus as their Savior.

Christians usually think of the star as a miraculous sign to show the birth of the Christ.

Astronomers have thought of many different explanations for the star. A nova, a planet, a comet, an occultation, and a conjunction (planets coming together) have all been suggested. Some scholars say that the story is not historically right and that the star was not real. The Bible seems to suggest that the magi visited Jesus at least several months after he was born. The visit is usually celebrated on Epiphany (January 6) in Western Christianity and on Christmas (December 25) in Eastern Christianity.

Don't you think that a doubt remains? How is Jesus' birth related to star of Bethlehem? Well, that's a really good question! The Star of Bethlehem, also called the Christmas Star, is a star in the Bible and Christian tradition. The Star of Bethlehem is traditionally linked to the Star Prophecy in the Book of Numbers:

I see him, but not now;
I behold him, but not near;
A Star shall come out of Jacob;
A Scepter shall rise out of Israel,
And batter the brow of Moab,
And destroy all the sons of tumult.

This prophecy refers to a man, who will end the sorrows of people and the people think thought that it was Jesus.

What do you think about the star? Was it real or was it just a scientific event? I am no believer of mythology myself but I guess time will tell. Whatever may be the origin or cause of this event, it has certainly made an interesting tale. I would like to end on that note, but don't forget to keep wondering.

-Pranjal Shahi (IX F)

NO ONE DOES

***The star that shone, far away in the murky sky.
As white as the snowflake in the season of love.***

***I stand there wandering in the linen landscape,
made from snow, chubby and hurt.***

***It's eight in moonlight, everyone home.
My Situation seems tight, whereas every couple prom.***

***Those warm souls made this cold heart,
carrot as the nose with sticks they start.***

***Everyone laughs, jumps, and boats,
I seem half, wearing just a coat.***

***The heart of the ice, freezing again.
Leaving this world with zero gain.***

***The time was defined, the minute hand struck,
The sunshine came, and life got plucked.***

***The snow giant is just water now.
The toy became a puddle, but how?***

***Brought with a smile, left with time,
who it affects in the world of dice?***

***No one cared when it felt alone.
No one now when water is thrown.***
