ACADEMIC SESSION: 2022-2023

CLASS - I

TALENT WEEK REPORT

‘Creativity follows mastery, so mastery of skills is the first priority for young talent’ - Benjamin Bloom

The students of Class I had their Talent Week from May 9, 2022 to May 13, 2022. Thus, on May 9, our little ones got a chance to exhibit their talent as a “Talent Show” was organized for them. The students fervently participated and came up with variety of activities like dance, singing, instrumental music, origami, art and craft, clay modelling etc. The entire atmosphere of our classes came alive with the display of their talent. We appreciate the efforts of the parents as without their support and providing of opportunities, the children would not be able to find their areas of interest that would eventually develop into their talents. The show was truly an enjoyable experience.
