MEASURES FOR PREVENTION AND CONTROL OF VECTOR BORNE DISEASES

Dear Parent,

It is important to prevent and control the vector borne diseases. Since there is no specific treatment/vaccine available against Dengue and Chikungunya, prevention of mosquito breeding is the only effective tool for prevention of Dengue and Chikungunya.

It becomes relevant to take all steps mentioned below:-

1. Ensure that overhead and other water tanks /cemented tank/containers are kept properly covered with a tightly fitted lid and lid should be kept locked. Overflow pipe /air vent are covered with cloth/wire mesh.
2. Water tank of coolers should be repainted and pads should be changed.
3. All coolers should be scrubbed and cleaned once a week and mopped dry before refilling. In coolers that cannot be emptied, put on teaspoon full of Tempos Granules or petrol/diesel.
4. Collection of stagnant water should not be allowed inside or around your premises and if the same takes place channelize the same or else a little quantity of petrol /diesel may be poured in such stagnant water.
5. The water contained in money plant/bamboo plant kept as showpiece in the house should be changed, also bird pots at least once a week after scrub cleaning and check for Aedes breeding.
6. Condemned articles lying in open and solid waste must be disposed off regularly. Unused/broken bottles, plastic cups, coconut shells, pots, tyres etc. That can hold water should not be left in the open.
7. Use wire mesh on doors and windows to keep mosquitoes away. Wear full sleeves clothes and trousers that cover arm legs. Use mosquito repellent cream/oils to prevent mosquito bite on exposed body parts during the transmission season.
8. National Centre for Disease Control, Govt of India has designed Room coolers which prevents mosquito breeding. This is patented design registered with national research development corporation NRDC).Cooler designed by NCDC may be used of conventional desert cooler. These coolers may be purchased from agencies registered with NRDC. You may visit the web side of NVBDCP i.e. <http://nvbdcp.gov.in> for details.

Regards

Principal
