

Workshop on POSCO Act

On 10th of February, 2024, an offline workshop was conducted at our school for the fourth class employees (maids, peons, attendants, sweepers and others). The resource person was Ms. Priyanka Rastogi, who is a social worker. The purpose of the workshop was to sensitise the attendees about preventing child sexual abuse and the POSCO Act. The workshop was conducted in Hindi so as to ensure that the attendees would understand the content completely.

Also there were related pictures shown to support Ms. Priyanka's content. She spoke about the way a child should be behaved with and what can be counted as offence against a child accordingly to POSCO Act. The attendees were asked questions based on the content in order to keep holding their attention and ensuring that they were able to comprehend the content.

The responsiveness and interactiveness of the attendees was a clear indication of Ms. Rastogi's session being a successful one.
